MEMORANDUM FOR: Deputy Director for Science & Technology

SUBJECT : DCI Briefings on Program Management

1. The Director has asked that a system of periodic progress reports be initiated on program management in the Agency. For the Science and Technology Directorate, these reports will update your contribution to the Program Memoranda on Research, Development and Engineering, Information Processing and Exploitation, Collection, and Production of Intelligence. The reports will be presented orally, using appropriate graphic material, and planned so that each session does not exceed two hours. The participation of your Planning Officers in developing these briefings is important since the presentation will constitute interim reports on the status of the programs you have incorporated in the Agency's planning, programming, and budgeting system and on future program plans. The first report for the Science and Technology Directorate is tentatively scheduled for mid-December 1966.

2. Progress reports should be organized to report on:

Objectives

Summary of major new program objectives for FY 1967/68

Accomplishments

Significant accomplishments in FY 1966 and FY 1967

Status of Programs

- a. Distribution of resources to major program targets (e.g., funds and manpower against Communist China)
- b. Current and anticipated funding problems (e.g., programs requiring additional funds not provided for in budget)
